Summary

Detail-oriented professional with 5 years of experience in banking operations and fraud analysis, now transitioning into full-stack web development. Proficient in modern frontend frameworks like React.js and backend tools such as Node.js, Express.js, and MongoDB. Passionate about building scalable, secure, and user-centric web applications, with hands-on experience integrating real-time APIs and managing authentication flows using JWT and cookies.

Skills

HTML • CSS • JavaScript • React.js • Redux Toolkit • Tailwind CSS • Firebase • Node.js • Express.js • MongoDB • Mongoose

Experience

Wells Fargo EGS India Pvt Ltd

Chennai

Fraud and Claims Operations Representative

08/2018 - 10/2023

- Investigated cardholder disputes and processed chargebacks, ensuring accurate reversals and compliance.
- Researched accounts, identified misuse, and flagged suspected elder abuse cases.
- Collaborated on audit cases, delivered feedback in quality reviews, and drove team-wide process improvements.
- Consolidated and presented quality tracking data to management for performance evaluations.

Projects

Placement Cell Management System (MERN Stack)

<https://placement-cell-frontend-chi.vercel.app/>

- Developed a full-stack **placement management system** using **React.js**, **Express.js**, and **MongoDB**, enabling CRUD operations on students, interviews, and results.
- Built RESTful API routes (/students, /interviews, /results) with JWT-based authentication and secure access controls.
- Integrated **CSV export functionality** for downloading interview results using Express and custom middleware.
- Designed a clean and intuitive frontend dashboard using **Tailwind CSS**, **DaisyUI**, and real-time Axios API integration.

Employee Review System (MERN Stack)

<https://employee-review-system-frontend.vercel.app/>

- Built a secure, role-based **Employee Review System** using **React.js**, **Redux Toolkit**, **Express.js**, and **MongoDB**, following **RESTful architecture**.
- Implemented **JWT authentication with HTTP-only cookies**, protecting all routes and ensuring secure session management.
- Created modular Express.js APIs for users, reviews, and authentication with proper **data validation** and middleware-based access control.
- Enabled **real-time frontend updates** with Redux state syncing and Axios API integration for dynamic feedback workflows.

DevTinder – Developer Connection Platform (MERN Stack)

- Created a **Tinder-inspired developer networking app** with user signup, profile editing, and real-time connection management using **React.js** and **Express.js**.
- Architected RESTful APIs for user authentication, profile handling, and connection requests with **JWT security and cookie-based session handling**.
- Managed global app state using **Redux Toolkit** and implemented protected routes using **React Router**.

Education

Nandha Arts and Science College

B.Com

06/2014 - 04/2017

Certification

Front End - Coding Ninjas

Back End - Coding Ninjas
